Web Development Projects

Kumoricon – Website Developer | 2025   www.kumoricon.org/maid-cafe/
Redesigned the Kumoricon website (a production of Altonimbus Entertainment, an Oregon nonprofit) and created the maid café site while adhering to their brand guide.
- Built maid café website and content using the WordPress editor
- Updated styling, layout, and spacing on the Guest of Honor page
- Ensured brand consistency across redesigned components

AheadComputing – Website Designer | 2024   www.aheadcomputing.com/
Redesigned the corporate website for AheadComputing, a computer hardware company in Portland, OR, while following an updated brand guide.
- Used the Wix Studio editor to redesign site layout and content
- Fixed spacing issues, color inconsistencies, and navigation menu structure
- Improved responsive design across devices, reducing unnecessary scroll and load time

DATA ENTRY: Portal – Web Developer | 2023   dtc-wsuv.org/projects/data-entry-portal/
Developed a website to accompany a VR game adaptation of the 1986 game Portal by Rob Swigart (published by Activision).
- Coded website with HTML5, CSS3, and JavaScript
- Designed mobile wireframes and prototypes
- Implemented responsive design using media queries, CSS Grid, and Flexbox
- Built a mobile hamburger menu using HTML5, CSS3, JavaScript, and SVG

Employment

PSI Services LLC – Test Administrator | Dec 2023 – Nov 2025
Ensured secure and consistent exam administration for multiple certifications.
